Condolences

Dr. LEKHA HRISHIKESHAN

We record with deep regret, demise of Dr. Lekha Hrishikeshan, Senior Consultant Pediatric Nephrology, Ananthpuri Hospital and Research Institute, Thiruvananthapuram on 14th June 2020. Dr. Hrishikeshan did her MBBS and MD Pediatrics from Govt. Medical College, Thiruvananthapuram. A brilliant student throughout her student days, she did DM Nephrology from Govt. Medical College, Calicut and as the first pediatrician to do DM Nephrology in Kerala. Thereafter she was awarded FRCPCH, MRPCH from Royal College of Paediatrics and Child Health, UK. She worked for 14 years at Royal Hospital, Muscat where she was instrumental in establishing Pediatric Nephrology services including dialysis and renal transplantation in Sultanate of Oman. After returning back to her home state, she joined Ananthpuri Hospital and Research Institute, Thiruvananthapuram in the department of Nephrology and continued her care for children with renal diseases. She also has been a great mentor for DNB Nephrology students in Ananthpuri Hospital.

Lekha was not only a brilliant nephrologist but also a humane person. She was an excellent home maker and a great cook too. She faced her medical illness with great courage. Our pediatric Nephrology fraternity has lost a brilliant academician, excellent colleague and a wonderful friend. Dr. Lekha Hrishikeshan is survived by her husband and two children all whom are in medical fraternity.

On behalf of ISPN community, we convey our sincere condolences to her family and near & dear ones.
